DE MORSE'S INVICORATING CORDIAL

FOR GENITAL BEBILITY, IMPOTENCY, INCONTI-NENCE, OR NOCTURNAL EMISSIONS, &c.—The ac-tonishing success which has attended this invaluable meditonishing success which has attended this invaluable incine, for Loss of Muscular Energy, Physical Lassidule, and General Prostration, or any of the consequences of youthful indiscretion, or indulgence of the passion in riper years, renders it the most valuable preparation ever discovered In fact, as a remedy for the above complaints, it stands unrivalled and alone. There is no other reliable remedy, or rivalled and alone. There is no other reliable remedy, or any that has authentically received the sauction of the Medical Faculty. The WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tosted, and its virtues preclaimed, by the highest names of the faculty of London, Paris, and the chief cities of Europe, as well as by eminent Phyricians in this country. It is the only intallible remedy for NERVOUS, HEAD, and MIND COMPLAINTS—the mental physics so long sought for and never before found—the only agent that can administer to MIND DISEASES. It will remove all nervous affections, DEPRESSION, EXCITEMENT, incapacity to study or business, loss of MEMORY, CONFUSION, thoughts of self-destruction, fear of insanity, &c. It will restore the appetite, renew the health of those who have destroyed it by Sensual Excesses or cell practices. It has been said by some that these disorders, emissions, &c., were incurable. This, however, is not the fact.

DR. MORSE'S INVIGORATING CORDIAL has cured, and is constantly curing, these complaints—relieving the

mental and bodily incapacity of the unfortunate sufferer, as the following testimony of the names received will conclusively show:

Dr. Woodward, of ——, Massachusetts Insane Hospital, writes of one of his patients being cured by using this Cordial thus: "It gives me pleasure to inform you that one of my patients, while in Boston, pracured some of your Cordial. He tells me that he has not had a single emission since he commenced taking it, while before he had two or three a week. When he applied to me," says Dr. W., "I thought it hardly possible for him ever to regain his full strength. I prescribed the usual medicine used in those cases in the hospital, but they had no effect. In the mean time he purchased some of your Cordial, which has effected a cure I am sure no other medicine would. I shall ever recommend it, whenever an opportunity occurs."

The nature of the maisdies relieved by this Cordial are generally such as to leave the publication of certificates of cures out of the question. The propristor could produce a host of the most conclusive testimony to show that the great reputation it enjoys was not accidentally obtained, but is firmly based upon its positive and apparently miraculous virtues. In all directions are to be found the happy parents of healthy offsprings, who would not have been so but for this extraordinary preparation. And it is equally potent for many diseases for which it is recommended.

No Mercury or Nauscous Drugs used.
Weakness, Loss of Organic Powers, Pains in the Lorns,
Disease of the Kidneys, Affections of the Head, Throat, Nove

Syrens to the mariners of Ulysses—blighting their most
brilliant hopes or anticipations, reserving Marriage, etc.,
impossible.

Young Men especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to cestacy the living lyre, may call with full confidence.

MARRIAGE.

Married persons, or those contemplating mearriage, being aware of physical weakness, should immediately consult Dr. J., and be restored to perfect health.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known. Many troubled with ringing in the ears and head when asleep, great nervousness, being alarmed at sudden sounds, and brashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

Dr. J. addresses all those who have injured themselves by private and improper indulgences, that secret and solitary habit, which rule both body and mind, unfitting them for

habit, which rule both body and mind, unfitting them for either business or society.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Imbs, Pains in the Head, Dinness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepais, Nervous Irritability, Derangement of the Digestive Functions, General Deblity, Symptoms of Consumption, &c., &c.

Mentally.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Love of Solitude, Timidity, &c., are some of the evils produced.

NERVOUS DEBILITY.

Weakness of the system, Nervous Debility and premature decay generally arise from the destructive habit of youth, that solitary practice se fatal to the healthful existence of man, and it is the young who are most apt to become its Victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas' how often do they sacribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsia, Indigestion, derangement of the Nervous System, Cough, and Symptoms of Consumption; also those serious Mental effects, such as loss of Memory, Depression of Spirits, or peculiar fits of Melancholy, when the truth is, they have been caused by indulging in Pernicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their Country, a pleasure to their friends, and ornaments to Society.

Society.
DR. JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS. GANIC WEAKNESS.

This grand and important Remedy has restored strength and vigor to thousands of the most debilifated individuals, many who had tost all hopes, and been abandoned to die. By its complete invigoration of the Nervous System, the whole faculties become restored to their proper power and functions, and the fallen fabric of life is raised up to beauty, consistency and duration, upon the ruins of an emachted and premature decline, to sound and pristine health. Oh, how happy have hundreds of misguided youths been made, who have been suddenly restored to health from the devastations of those terrific maladies which result from indiscretion! Such persons, before contemplating.

tion! Such persons, before contemplating MARRIAGE, should reflect that a sound mind and body are the most nesnoula renect that a sound intrict and seey are the most necessary requisites to promote communial happiness. Indeed, without this, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes blighted with our own. Let no false delicacy prevent you, but

apply immediately.

He who places himself under the care of Dr. Johnston may religiously confided in his honor as a Gentleman, and confidently rely upon his skill as a Physician.

TO STRANGERS.

The many thousands cured at this institution within the last ten years, and the numerous important Surgical Operations performed by Dr. J., witnessed by the Reporters of the papers and many other persons, notices of which have appeared again and again before the public, is a sufficient guaranty that the affilted will find a skilful and honorable physician.

TAKE NOTICE.

TAKE NOTICE. TAKE NOTICE.

It is with the greatest reluctance that Dr. Johnston pernits his card to appear before the public, deeming it unprocessional for a physician to advertise; but unless he did so, he afflicted, especially strangers, could not fail to fall into he hands of those impeudent, boasting impostors—individuals. KRAUSER'S PATENT CLOVER-SEED HAR-VESTER

IS BEFORE THE PUBLIO FOR THE FIRST TIME
ITS utility is beyond comparison with any other farming
implement now in use. It takes the seed from the field,
leaving the straw or grass all standing. It weights two hundred and fifty pounds, is drawn by one borse, and gathers
from ten to twelve acres per day. The fingers, or teeth,
catch all the heads, the revolving knives cut them off and
throw them back into the box, which will cross a twentyacre field without emptying. The heads are these loaded
into a wagon and taken directly to the mill for cleaning,
thus diminishing the labor three-fourths, and saving all the
seed. This machine comes so low that every former mill
have it, and pays the manufacturer 300 per cent.

This work, by J. M. Letts, has been adjudged by the unanimous voice of the press to be the most claborate, practical, and intensely intoresting volume that has yet been written upon this golden theme. Since the publication of Stevens's Journal of Trivels, no work has appeared that has created such a thrilling sensation. It is pre-eminently practical, and is interspersed with incidents of the most amusing character. In the language of one of the city editorials, "it is a perfect daguerrectype of California, taken by the light of a neonday sum." Also, Dr. Beach's great work on Medicine, THE AMERICAN PRACTICE AND FAMILY PHYSICIAN, 300 pages, 200 engravings, 8vo., sheep, price \$5. borhood in which a church is located. There has not, he said, been a single new Presbyterian church established in this city for the last fifteen or twenty years, while other denominations have erected many new buildings, and thus extended the field of their operations. He stated, howev er, by way of encouragement, that at that time there were not five hundred communicants in the four churches, but now there are as many in the Fourth Church alone. This fact served to modify the expression that Presbyterianism has made no advance. And he earnestly urged that now was the time to erect a Presbyterian church where he was standing—a temple to God, in which He might be worshipped "in spirit and in truth."

Silas H. Hill, esq., in the course of his chaste and pertinent address, spoke of the Christian's duty in exercising every means with which a ish vessels for bountiful Father has blessed him, in aid of the extension of the Kingdom of the Redeemer, until the knowledge of God shall cover the earth as the waters cover the mighty deep. He said that the means of grace do not increase in a ratio with our augmenting population, and hence the importance of the enterprise in which they were engaged. It was a familiar truth that the Sabbath is desecrated, that crime is on the increase, and that infidelity is rife around us. In no sectarian spirit, then, but animated by a desire to do good, they should all rally around the standard of the cross, and erect upon every neglected spot a temple dedicated to the worship of the true and living God.

He quarrelled with the wild-roving savages of the Southwest, and brought them to a state of meekness and quiet they have not yet forgotten. He adjusted a quarrel which the administra-tion of General Jackson had forced upon it by the nullifiers of South Carolina, and really made

them believe the supremacy of the law above their petty grievances. He had several serious quarrels with Santa Anna and other Mexican generals; so serious indeed that that he was compelled to pepper them and their whole command with cold lead. The Mexican government, backed up by an im-becile administration at home, could not prevent his quarrels with them, or the choice of weapons he felt it his duty to use, in the defence of his country's rights. He kept right on, not regarding the "fire in the rear" or the difficulties ahead, and conquered an honorable peace. His war equipage was securely lain away while and his brave companions "revelled in the Halls of the Montezumas." In his dispute with the Mexicans, he taught eight thousand half disci plined troops to conquer a country containing seven millions of inhabitants.

He quarrelled with the "Polk and Dallas" adninistration of 1846, and taught it to respect the "hero of three wars." Polk and Marcy had an idea that the laurels Scott had won in Mexico should be equally divided between the "Presi-

dent and his writing master.' He at present has a remarkable misunderstanding and dispute with the locofoco party. They question the propriety of electing military men" to the highest honors of the republic. This quarrel the people will settle in

The Ministerial journals announce with perfect confidence the termination of the Fishery dispute. The terms of the settlement amount to absolute reciprocity so far as the right of fishing is concerned, the Americans having the right to fish in British waters and the English in American waters, within three miles of the shore, the distance to be measured to the nearest shore, without distinction between bay or open ses. It is reported that the screw frigate Termagant is fitting out at Portsmouth to Join the fishery squadron.

The news from France was unimportant. The Princess de Vasa had returned to Austria, and it is supposed that her contemplated marriage with Louis Napoleon has been broken off.

The Age of Blunders. Blundering is the order of the day with the cocofocos. All their fabrications explode on heir hands; and they have scarcely made a movement since the canvass opened which they did not have to retrace. The "thrilling disbasement rooms fitted up for use, and by next summer the building will be completed. This enterprise was commenced without Jefferson commissioned, whom Madison made a Major General and offered the post of Secretary of War, whom Jackson and Van Buren both entrusted with the most delicate and difficult duties, and whom Polk sent to conquer Mexico. More a flat pilaster, arising from the ground-line, cuts than a barrel of ink was expended on this charge. But it leaked out that he had perilled his life for his adopted fellow-citizens, and saved the lives of some of them-which did not look like he hated them very much. And again, it was ascertained that his assailants-the New Hampshire Democracy-treat foreigners worse than they do negroes-giving to the latter the right to hold office-both of which privileges they deny to the former. > Now, that blundering "stoopid," the Washington Union, is pouring hot shot into the flanks of its friends, the Federalists, who opposed the war of 1812. Of all the enemies of that war, there were none more bitter than the blue-noses of New Hampshire. They refused to permit the militia to march to the defence of the country, while General Scott, the Whig candidate, was struggling day and night, perilling his life, and exposing his body to British bullets, to protect them from invasion. We hear the question asked at all points every day, "Why does not Mr. Webster come out and declare where he stands?" We must confess this is a question full of meaning, and one that, it seems to us, should take no longer to answer than to write it out in a few words. We believe that ninety-nine hundredths of the fast friends of Mr. Webster are dissatisfied with his silence on this subject, and every day his declarations are delayed, adds only to the surprise caused by it. We think the course adopted by Mr. Webster is unaccountable, and one in which he cannot be justified by the party to which he has so long been attached, and with whom he has been battling for the principles cherished by them.

WHEELING BRIDGES .- The bill to legalize the Wheeling bridges, to regulate the height of steamboat chimneys and to establish a post route across these bridges, has passed the Senate and is now the law of the land, having passed by a two-thirds' vote. We need not say that this result is gratifying to us all, and is confirmatory of the propriety of the legislation of Virginia, of the erection of the bridges, and of the action and defence of the company before the Supreme Court. The highest assembly in the world, that assembly to which only the members of the Supreme Court are responsible for their acts, and before which only they can be tried, has thus stamped its seal of disapprobation and dissent upon the usurpa-tion of the court, and we doubt not that the effect will be most salutary and make the court, in future, appreciate the truth of the maxim "festina or "luck in leisure," when it comes to the consideration of questions of fact, of State rights and federal jurisdiction .- Wheeling Intel.
